To Whom It May Concern

It is with great pleasure that we write this letter of recommendation for Mr. Rayhan Khimji in recognition of his contribution to the Welfare Society for Destitute Children during the summer of 2025.

Rayhan demonstrated dedication and compassion in his volunteer work at our orphanage and school, where he played a pivotal role in improving the health and well-being of the children under our care. Rayhan with the help of medical professionals, facilitated more than 150 medical tests, through which he identified 60 malnourished children in need of nutritional support and medical attention. In order to contribute to the well-being of these children, Rayhan distributed food kits containing Jaggery, Oil and Peanuts for their caregivers to prepare high-protein snacks. This thoughtful initiative has left a lasting positive effect, supporting mother in preparing nutritious meal for their children in the long term.

In addition to organizing medical test, Rayhan actively engaged with the children and their families, conduction educational sessions on the essential topics such as personal hygiene practices and the importance of balanced nutrition. His ability to communicate in a kind and approachable manner made a significant impact on the families helping to raise awareness and promote healthier lifestyles withing the community.

We are deeply grateful for Rayhan's hard work, compassion, and commitment to our cause. His contributions have made a meaningful difference in the lives of the children we serve.

Sincerely,

Brother Joseph Sebastian

Trustee and Secretary

Welfare Society for Destitute Children
