Dear Rayhan,

I am pleased to confirm my commitment to invest **INR 10L** in SNACC, at an agreed company valuation of **INR 1.5 crore**, subject to the completion of mutually agreed definitive documentation and customary closing conditions.

My decision to invest is based on the encouraging trajectory of the business and its revenue, your passion and conviction as a founder, and the opportunity to build a new category focused on protein and better nutrition for young people. I believe there is significant potential in creating a protein bar that is specifically designed to appeal to teenagers and address their evolving nutritional needs in an accessible and engaging way.

Beyond my investment, I look forward to supporting you as you build the business. I would be glad to mentor you and contribute, where useful, through guidance on fundraising, access to my network, introductions to relevant stakeholders, and broader strategic support as the company grows as you build this while you pursue your undergraduate education.

I am excited about the journey ahead and look forward to seeing SNACC develop into a strong and differentiated brand in this emerging category.

Warm regards,

Tarana Lalwani
